TS 100

High-performance professional electrostatic sprayer

The TS 100 electrostatic sprayer is a machine that enables a professional, efficient and reliable disinfection of all kinds of spaces.

Easy-to-use and extremely powerful, the TS 100 is the perfect machine for situations requiring the highest performance in large-scale facilities that are in need of constant cleaning.

CHARACTERISTICS

- Stainless steel structure
- Oil-free compressor
- Housing for spare tank
- Integrated safety system
- Hose adapter
- Suitable for all types of water-based conventional chemicals
- Uniform coating
- Silent running

Dimensions **53 x 54 x 82 cm**

Net weight **45 Kg**

Weight incl. packaging **50 Kg**

Electrical specifications **220v & 110v**

Length of the dual-tube hose **16'8" / 5 m**

Flow speed **up to 130 ml/min**

Length of power cable **6'7" / 2 m**

Droplet size **40 microns**

Tank capacity **5 l**

MADE IN SPAIN

Complies with EC regulations

Electrostatic Technology

THE ALL-ENCOMPASSING ELECTROSTATIC TECHNOLOGY OF THE TS 100

The disinfectant solution for spaces and utensils for all sectors and industries

The TS 100 works through electrostatic spraying, avantgarde technology patented by TecnoStatic. The "all-encompassing" nature of this machine provides a 360° disinfection, enabling savings in disinfectant solution, time and labour.

The electrostatic spraying works by applying an electric charge to the disinfectant liquid. When these liquids are sprayed, the droplets are attracted to the surfaces which have the opposite electric charge, adhering to these surfaces exactly and uniformly.

The TS 100 provides greater cleanliness than any conventional system out there, as it reaches every last nook and cranny, coating the surface of any object present.

TOTAL COVERAGE

Spraying is uniform and precise, covering even the least accessible of areas

PREVENTION OF CROSS-CONTAMINATION

Avoid bacteria, germs or viruses spreading from one surface to another

NOTABLE SAVINGS MADE

Significantly quicker application times

ASEPSIS GUARANTEED

You do not need to move the surfaces or objects

QUICKER DRYING TIME

Spraying leaves a super-fine layer that dries really quickly

ENVIRONMENTALLY FRIENDLY

Uses only the minimum chemical products required
